

THE BACK-VAC

Leaf vacuum, litter and dog faeces vacuum collection unit.

The petrol driven back-mounted vacuum cleaner **The Street Vac** is ideal for leaf, litter, and dog faeces collection.

Trafalgar Cleaning Equipment has launched a revolutionary new concept in leaf vacuums and litter collection.

A petrol driven back-mounted vacuum cleaner, **The Street Vac** is the latest revolutionary idea in cordless power tools.

POWERED by
HONDA™

Powered by Honda

The Back-Vac Leaf Vacuum & Litter Collection Unit is powered by the new Honda GX25T engine, a new concept in low noise 4-stroke engines.

The ultra-lightweight GX25 Mini 4-Stroke efficiently delivers the kind of efficient cleaner, powerful, quiet performance that you'd expect from a larger engine – but in a very compact package.

35 Litres of Rubbish!

Weighing only 10Kg, the Back-Vac Leaf Vacuum, Litter and Dog Faeces Collection Unit is the ideal solution to cleaning in the most inaccessible areas.

The Back-Vac can hold up to 35 litres of leaf, litter and general waste rubbish which is collected through either a 5" or 4" vacuum hose (3" vac hose is used for collecting dog faeces).

Go Anywhere

The Back-Vac litter, faeces and leaf vacuum cleaner opens up a new concept in the way you collect leaf and litter or contaminated materials like dog faeces.

Because of the Back-Vac's cordless operation, this now allows the operator to go literally anywhere and collect rubbish, leaf, litter and dog faeces in remote areas.

Specifications

Engine:	4 stroke overhead cam, single cylinder	
Displacement:	cm ³	25.0
Bore and stroke:	mm	35.0 x 26.0
Ignition system:	transistor magneto	
Engine oil capacity:	Ltr	0.08
Weight:	Kg	10

Waste capacity:	Ltr	35
Fuel tank:	Ltr	0.32
Spark plug:	CMR5H	
Idle:	0.241 M/s" @ 630rpm	
Full Rev:	0.237 M/s" @ 1500rpm
