

The all new Eco City Bin is designed to make litter picking in busy built up and busy pedestrian areas easier than ever before.

The Eco City Bin is a battery propelled orderly barrow with an 8 hr run time. Designed with ergonomics in mind there is room for everything an operator would need for a full shift.

There is a 120ltr wheelie bin and two 30ltr bins for curb-side recycling. Storage for a broom, litter picker and shovel. There is even a lockable storage box for any incidentals that the operator wishes to take out with them.

Careful attention has been paid to the type of environment the Eco City Bin will be used in and as such the unit comes as standard with an operating LED light, horn for attracting attention, permanent flashing LED's and reverse beeper.

Simply push the lever down to move forward and up to go backwards. No pushing or pulling required.

With the hydrostatic drive the unit can't be moved when not in use.

100%
ELECTRIC

ECO CITY BIN

100% Battery Powered Compact Street Orderly Barrow-bin.
