DEMONSTRATION

Easy to use, easy to empty, two year warranty, five year bin warranty, low engine noise, picks up in long grass, non corrosive bin

The original pioneers in muck collection!

Having Pioneered muck collection in the early 90's, Trafalgar cleaning equipment has continued to evolve its unique range of products to make yard and paddock cleaning a less arduous task. Simple to operate, it comes with the standard 4 stroke Honda powered engine, which creates a phenomenal vacuum in a large container to offer powerful suction through a 5" Pick up tool. Due to popular demand, there is now a 4 stroke Honda powered version available. The 4-stroke engine eliminates mixing 2 stroke fuel.

The PC50's lightweight, but rugged construction allows the machine to be easily pulled and manoeuvred, whilst the larger models are adapted to be towed with ATV's, ride on mowers and compact tractors. They perform in any conditions, wet or dry. These Paddock cleaners are also useful for collecting leaves, litter and cleaning water troughs.

Why should you clean your paddock?

For the horse owner and smallholder, collection of manure is one of the biggest headaches encountered. The average horse for instance will produce approximately 20kg of manure each day, that's 7.5 Tonnes annually. It's a problem which grows rapidly, and isn't easy to ignore. In the summer worm larvae can spread from the droppings to the grass in the paddock in only a couple of days.

Manure from grazing animals, including horses, is high in nutrients (e.g. phosphorus and nitrogen) and also contains pathogens (e.g. cryptosporidium). The pathogens and viruses that occur in manure can cause animal health problems. Studies have shown that removal of faeces twice per week can reduce the parasite burden in horses by over 95% compared to no removal.

The Full Paddock Cleaner Range

Below is our full range of paddock cleaners exclusively made in our workshop by our own engineers.

PC50

Ideal for smaller paddocks and yards, the PC50 is the ideal solution for difficult to access areas.

PC450H Power Paddock Cleaner

A self propelled machine with the option of different attachments, versatile and manoeuvrable.

PC500H Plus Paddock Cleaner

The new PC 500 plus now comes with wider tougher terrain wheels and swivel hitch.

PC500H Swivel Paddock Cleaner

A swivel mounted chassis. hopper fully rotates 360 degrees for maximum manoeuvrability.

PC1000H Large Paddock Cleaner

A larger machine for customers with more animals and larger paddock and yards areas.

PC1000H Swivel Large Paddock Cleaner

A larger machine with 360 degree turntable chasis for ease of use and movement.

PC50 Street Vac

Petrol Vacuum for leaf, litter, and dog mess collection.

The PC50 Street Vac opens up a new concept in the way you collect litter or contaminated materials, like dog faeces.

The PC50 is the ideal solution to cleaning in the most inaccessible areas and is powered by the new Honda GX25 engine, a new concept in low noise 4-stroke engines.

The PC50 can also hold up to 50 litres of rubbish which is collected through either a 5" or 4" vacuum hose (3" vac hose is used for collecting dog faeces), this allows the operator to go literally anywhere and collect rubbish and contaminated waste.

For more information and a FREE onsite demonstration call 01403 273 444 or email us at sales@tce.org.uk

Features include

- Powerful 4 stroke Honda GX25 engine
- Strong, durable structure
- Easy to transport and manoeuvre
- Easy to empty
- Simple to keep clean
- 2 year Warranty

Technical Specifications

Engine	4 strokeoverhead cam, single cylinder	
Displacement	cm	≈25.0
Bore and stroke	mm	35.0 x 26.0
Ignition system	-	transistor magneto
Engine oil capacity	Ltr	0.08
Waste capacity	Ltr	50
Fuel tank	Ltr	0.32
Spark plug	-	CMR5H
Idle	0.227 M/s ²	@ 630rpm
Full Rev	0.237 M/s ²	@ 1580
Weight	kilos	42
Dimensions (cm)	WxDxH	70 x 90 x 140

PC 500H Plus Paddock Cleaner

With NEW and improved fan system. Perfect for horse and alpaca paddocks.

The **PC 500H Plus** is lightweight yet its rugged construction allows the machine to be easily pulled around the yard or paddock.

The PC 500H can be towed behind to most ATV, ride-on mowers and compact tractors and comes with wider tough terrain wheels and a swivel hitch.
